

Monday 22nd June 2020

Maths- Doubles

Today we are going to focus on doubling. When we double, we add the same number together so for example double 3 means $3 + 3$ which is 6.

View the PowerPoint. This goes through doubles to 20 and give a visual representation.

Task – Complete the doubles ladybirds. There is a sheet attached but if you can't find then create your own ladybirds.

Extension- If you complete the ladybirds quickly can you write out the number sentence to go with each ladybird, for example $4 + 4 = 8$. Then can you try and remember then and get someone to test you. How many can you remember?

English- The Giant!!!!

Today I would like you to draw a picture of the giant. Think carefully about what he looks like and what he might be wearing. Around your picture write some words to describe them.

Example-

Phonics- Go onto Discovery Education and start Phase 4 Kim's phonics. Begin by watching the 'Words beginning with cc (1)' video and complete one of the activities.

Tuesday 23rd June2020

Maths-Doubles

Revisit the Doubles PowerPoint. Can you remember the doubles that you practiced yesterday?

Today we are moving on to doubles up to 20. Remember that doubling means we add the same number together so double 6 would be $6 + 6$ which = 12.

Task- Complete the domino doubles sheet.

Challenge- See if you can remember any and ask an adult to test you. How many can you get right?

English- Writing sentences

Today you are going to use your work from yesterday to help you writing sentences about the giant.

Use the words that you came up with yesterday to make your sentences.

Example-

The giant has got big, stinky feet.

Task- Write 3 sentences about the giant. If you can write more than this that would be excellent.

Refer to writing checklist for expectations.

Phonics- Go onto Discovery Education and start Phase 4 Kim's phonics. Begin by watching the 'Words beginning with cc (2)' video and complete one of the activities.
