Maths- Finding half of a shape

Discuss with children what we mean by a half- it is when we split something into 2 equal parts. It is really important the children understand that the parts are equal and not 2 uneven parts. If possible, demonstrate this. It could be as easy as chopping a cake into 2.

Task- Complete the attached sheet. Can children spot when something is not split into 2 equal groups? If you can't print out the sheet, then complete this activity practically. You can use whatever you have to hand to recreate it although I think cake is best 😊

English- All about me

This week we are going to be writing all about you and your family. Today it is going to be all about you. Have a look at the attached sheet and fill it out. Or if you would rather create your own then you are more than welcome to and use the attached one as a guide.

Phonics- Go onto Discovery Education and type in Phonics. Start with Phase 4 Kim's Phonics and the 'Words beginning with CCC' video and then complete one of the activities.

Tuesday 30th June 2020

Maths- Finding half of a shape.

Today we are going to revisit finding a half. Draw a circle. Can you cut the circle in half? Are both parts equal? Can you half the circle in another way? Are both parts equal?

Task- See the 2D shape sheet. Can you find a half of each shape and colour it in?

English- All about my family-

Today you are going to write all about your family. Draw a picture of your family and label each member. Then I want you to write something about them. (A template is attached as a guide)

Example-

My dad likes cricket.

My mum likes to plant flowers.

Phonics- Go onto Discovery Education and type in Phonics. Start with Phase 4 Kim's Phonics and the 'Long words' video and then complete one of the activities.
