

## Wednesday 1<sup>st</sup> July 2020

### Maths – Finding half of an amount.

Today we are going to continue with finding a half but this time it will be of an amount. This session is going to be practical as it is a great way to start so we can see what we are doing.

Grab some pasta shells. Take 6 from the pile and then see if you can split them into two equal parts. Ensure that you recognise that half is just one of those parts and that the two parts together make a whole. You should have three in each group. Repeat for other numbers up to 10. When it comes to odd numbers these can be tricky as they do not half into whole numbers. For example, half of 7 is 3 and a half. Explain to children these numbers can be halved but not into whole numbers.

Can you record what you have done? Maybe take some photos of you doing this. It would be great if you could send me some to see.

English/ Art- Today we are going to make self-portraits. Make sure you draw them out in pencil carefully first before moving onto colouring. It is up to you if you wish to paint them or use colouring pencils to complete them. Use a mirror to help mark out the features of your face. Try to remember that your eyes are lower down than you think so avoid putting them at the top of your head!!!!

Keep these portraits safe as we will use them on our return to school

Phonics - Go onto Discovery Education and type in Phonics. Use today to recap any of the previous sessions you found tricky. Revisit the video and then complete one of the activities.

## Thursday 2<sup>nd</sup> July 2020

### Maths- Finding half of an amount.

Revisit yesterday's activity today to consolidate your learning. It is important you care confident at finding a half independently.

Challenge- Can you go beyond 10 and use numbers up to 20?

**English – What are your favourite things to do?**

Today I want you to think of 4 things you really enjoy doing. This could be swimming, making Lego, baking etc.

**Task-** Take a sheet of A4 paper and fold it in half and then in half again to create quarters. In each quarter draw a picture of you doing one of your activities and then write about it.

<p>I love to go swimming. I like to jump off the side and splash.</p> 	

**Phonics** - Go onto Discovery Education and type in Phonics. Use today to recap any of the previous sessions you found tricky. Revisit the video and then complete one of the activities.

**Friday 3<sup>rd</sup> July 2020**

**Maths- Finding half and a whole.**

Today we are going to apply what we have learnt about half and whole. Have a look at the attached sheet and fill in the missing gaps. On the sheet it says to use counters to help you, but pasta works just as well.

**Task-** Complete the attached sheet.

## English- Noah's Ark

Look to the story of Noah's Ark (attached in a PowerPoint). What did you think of the story? What would it have been like to be on board the ark? Did you like the rainbow at the end. The rainbow is a sign to how us how wonderful the Earth is.

**Task-** Can you create a rainbow just like in the story? You can create this in any way you choose. You could colour one, paint one or make it from flowers? Its up to you.

**Phonics -** Go onto Discovery Education and type in Phonics. Use today to recap any of the previous sessions you found tricky. Revisit the video and then complete one of the activities.
