

Moana film review

I love this Disney film! It is one of my favourites! Heard a lot about it but only just got chance to see it. A really upbeat film with lots of great, happy songs with catchy tunes!

It's about a girl from an island who has to put back the island's heart after it was stolen by a demi-god. She has to track down Maui and persuade him to sail across the sea with her and put it back. Maui the demi-god can do anything with his hook. They meet scary creatures along the way. Which include: Coconut pirates, Clam, Lava woman.

The film has lots of laugh out loud parts as well as scary moments and an exciting ending.

I think it was one of Disney's better films and is worth a watch. Even mum was laughing and singing along!

They are a fearless team and nothing will stop them.

I love this film I would give it 10/10!!
