

## My book review – The Christmas Spirit

I have created a story called the Christmas spirit. It is an adventure about a girl and boy who get whisked off to a winter wonderland. They meet Santa and ride reindeers and go trekking up mountains, Emily gives Danny a veterinary lesson when his reindeer gets injured. They are so happy they don't want to leave their reindeers behind and get to gallop into the sunset! It's a heart warming adventure story, good for bed time reading.
