

English Project

Week Commencing 1st June 2020

Sustainable Fabrics and Recycled Materials

This weeks' project is about sustainable fabrics and recycled materials. Although there are tasks, when and how you set out these tasks is up to you. You could create a working document or scrapbook, type up your work, create a PowerPoint presentation or have each task as a separate piece of writing.

Please send pictures of your work or documents if typed up to Miss Pope on charlotte.pope@gillamoor.n-yorks.sch.uk on Friday.

- What are sustainable fabrics and recycled materials? Research these and make notes using bullet points as you read. You can also create a word bank and make copies of or save pictures and photographs.
- Think about using conjunctions and commas in your work. These can be used instead of each other so you don't need to use them together. For example you don't need, "but," use either the comma or the but. Re-watch the conjunctions video from last half-term if you need to.
- Create a fact file about sustainable fabrics and recycled materials and compare the similarities and differences of the two. Use pictures/sketches if you need to.
- Design your own sustainable and/or recycled outfit. There must be labels and paragraphs to explain your answers. Don't forget to use adjectives and adverbs for descriptive language.
